OBJECTIVE

A passionate Frontend Developer skilled in building modern, responsive, and scalable web applications using the MERN stack. Strong understanding of HTML, CSS, Tailwind, JavaScript, and React with experience using Redux for smooth and efficient state management.

I have worked on real-world projects during my 6-month training and internship, and since 15th August 2025, I have been working as a Web Developer Intern at Seclance. I am looking for an opportunity to learn, grow, and contribute to impactful projects while enhancing my development skills.

EXPERIENCE

Web Developer Intern — Seclance.com

August 2025 – Present

- Working on front-end development for live client projects using React.js & Tailwind CSS.
- Implementing reusable components, improving UI/UX, and writing clean, maintainable code.
- Integrating REST APIs, handling data flow, and debugging UI issues.
- Ensuring responsive layouts and optimized performance across all devices.

Frontend Development Training — Learn To Earn Program

February 2025 – July 2025 (6-Months Training)

- Completed hands-on training on MERN stack and frontend development.
- Built multiple projects focusing on UI, API integration, React Router, and state management.
- Worked on responsive design, component-based architecture, and real project workflows.

TECHNICALSKILL

Frontend	:	HTML, CSS, JavaScript, React.js, Redux, Redux Toolkit, Tailwind CSS, React Router, Styled Components, Axios
Backend	:	Node.js, Express.js, GraphQL
Database	:	MySQL, MongoDB
Tools	:	Git, GitHub, VS Code, Postman
Areas of Interest	:	Frontend UI Design, API Development, Responsive Interfaces, Web Performance

PROJECTS

Real E-State

Description: Developed a scalable real estate platform with role-based access for admins, sellers, and buyers. Implemented advanced search and filter functionality using Mongo DB and React, and integrated secure JWT authentication with custom dashboards for each user type. Added Restful API messaging features and admin moderation tools to enhance user interaction and platform control.

Technology Used: ReactJS, TailwindCSS, Shadcn, MongoDB, Express.js, Node.js, Axios.

Duration: Nov 2024–March 2025

Hotel Booking Web Application

Description: Developed a responsive and user-friendly hotel booking web application that allows users to browse, search, and book hotels. The interface includes search filters, booking forms, and a dynamic display of hotel listings with smooth UI transitions. Focused on frontend design and user experience.

Technology Used: ReactJS, Tailwind CSS, ShadCNUI, HTML, CSS, JavaScript

Duration: April 2025–Present

EDUCATION

Bachelor of Computer Applications (BCA)

Dr.MPS Group of Institutions College, Agra, Uttar Pradesh

(2022–2025)

(12th) Jayotri Academy Bharthana Etawah

(10th) Jayotri Academy Bharthana Etawah
